

“Home Improvements” If You Want To Install a Lawn Irrigation System

Many home improvement projects are subject to community zoning and building code restrictions and do require a permit. This information sheet has been written to help you with your construction project. It lists the information needed to be submitted with an application for your specific project.

IMPORTANT NOTE – It is vitally important that all projects be accompanied with site or plot plans (plot plans can generally be found with the legal documents on your property. Sometimes they may be referred to as site plans or mortgage surveys).

Please submit the following information:

- Submit a copy of your site/plot plan.
- Indicate the location of the proposed lawn sprinkler layout on your plan.
- Please identify the location and type of backflow prevention device proposed.
- Fill out the building permit application.
- You will be required to call for a backflow prevention device inspection.

Construction permit applications can be obtained in the Community Development Department located at 300 East Pearl Street, Monday through Friday from 8:00 AM to 4:30 PM, or online at www.ci.harrisonville.mo.us. Our telephone number is 380-8958 if you have any questions or would like to request an inspection.
